

Mauricio Vasco Vélez

Senior Front-End Developer & Tech Lead | Angular, AWS & Mobile

Toronto, ON, Canada · maurovasco91@gmail.com · linkedin.com/in/mauricio-vasco-velez · mvasco91.github.io/portfolio

PROFESSIONAL SUMMARY

Senior Front-End Developer and hands-on Tech Lead with 10 years of experience building secure web and mobile applications with Angular (AngularJS through the latest versions), Ionic and Capacitor, much of it for major banks and financial clients, including payment gateway integrations. Joined Asigra as a Senior Developer and was promoted to lead the front-end team within the first week, later growing it to 11 developers and earning Employee of the Quarter, while continuing to write production code. Experienced integrating front-end and mobile apps with AWS serverless (Lambda) APIs, REST services and databases, and using AI tools daily to deliver faster with high quality. Open to senior developer and tech lead roles.

TECHNICAL SKILLS

Angular & Front-End: Angular (AngularJS through latest), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, NgRx, RxJS, Signals, Nx, Angular Material

Mobile: Ionic, Capacitor, Cordova, iOS and Android hybrid apps

Cloud & APIs: AWS (front-end integration with AWS Lambda / serverless APIs), RESTful APIs, OpenAPI, Node.js, Express, MySQL

Financial Applications: Banking applications, payment gateway integration, secure handling of financial data

Security: OWASP, OAuth/JWT, secure coding

Leadership & Delivery: Technical leadership, code reviews, mentoring, Agile/Scrum, Jenkins CI/CD, Git, Jira

Testing: Jest, Jasmine, Karma, Playwright, Cypress

AI Tools: Claude Code, GitHub Copilot, AI agents

PROFESSIONAL EXPERIENCE

Front-End Tech Lead

Jun 2022 – Present

Asigra · Toronto, ON · Working full-time from Canada since December 2024

- Hired as Senior Front-End Developer and promoted to lead the front-end team within the first week; recognized as Employee of the Quarter for on-time delivery and commitment.
- Lead and mentor the front-end team (up to 11 developers, currently 3) while staying hands-on: building features, conducting code reviews and taking part in technical hiring.
- Built the front-end architecture of SaaS Assure, a secure enterprise SaaS data protection platform, from inception with Angular, NgRx, Nx and Signals.
- Integrate the front end with REST APIs and cloud services on AWS, working closely with backend engineers, architects, product managers and QA.
- Maintain 90% test coverage with Jest and Playwright and own production deployments through Jenkins CI/CD.
- Introduced AI-assisted workflows (Claude Code, GitHub Copilot, agents), cutting delivery time for many features from weeks to days.

Senior Front-End Developer

Dec 2021 – Jun 2022

Gorilla Logic · Client: Western Asset (fixed-income investment management)

- Built new Angular applications for a global investment management firm and delivered multiple successful production releases, earning client recognition for performance.

Senior Front-End Developer

Jan 2021 – Dec 2021

Making Sense LLC · Client: AHP (U.S.)

- Shipped features to production for a U.S. client's web platform using Angular and NgRx, earning positive client feedback.

Senior Front-End Developer / Front-End Team Lead

Dec 2019 – Jan 2021

SURA · Project: Wesura

- Led the front-end team for Wesura, a customer-facing insurance platform of one of Latin America's largest financial groups, serving 5,000+ users.

Front-End Developer

Aug 2016 – Dec 2019

Pragma · Clients: Itaú, Bancolombia, BCR, Genfar, Universidad de Antioquia

- Built banking web and mobile applications for major banks (Itaú, Bancolombia, BCR) in high-security environments, using AngularJS, Angular, Ionic and TypeScript.
- Delivered multiple successful production releases in Scrum teams with continuous integration through Jenkins.
